

TB8000

Higher Levels of Safety

The TB8000 is TOPDON's newest basic smart charger - a must-have tool for the DIY community. This product is perfect for 6V/12V lead-acid batteries, 12V lithium batteries and supports a wide range of capacities - from 15Ah to 260Ah. With 9-step smart charging and six charging modes, the TB8000 provides extra protection to batteries and high levels of user safety that everyone is happy to have.

Features

- 9-Step Smart Charging System
- Instantly Checks Battery Sulphation and Acid Layer
- Repairs Lost Battery Performance
- Spark Elimination Technology
- 6 Charging Modes: 12V Norm, 12V Cold, 12V Lithium, 12V Small Norm, 6V Norm, and 12V Repair
- Voltage Detection Function
- ABS Flame-Retardant, IP65 Waterproof, and Dustproof Housing
- Suitable For AGM, WET, GEL, MF, CAL, EFB, and More Batteries
- 5 Built-In Protections (Reverse Polarity, Reverse Charge, Short Circuit, Overheating, And Over-Voltage)

Specs

- Input Voltage: 100-240V
- Output Current: 12V8A 6V8A 12V3A
- Charging Mode: 12V8A(NORM/LI/COLD)12V8A(REP) 6V8A(NORM) 12V3A(Small NORM)
- Applicable Batteries:15-260Ah
- Clip type: 1 pole clamp (voltage detection supported)
- AC Cable length: 78", Input AWG18#
- Clip cord length: Positive AWG14#, SR 55" + positive 15" Negative AWG14#, SR 55" + positive 15"
- Waterproof Rating: IP65 Natural Cooling

What's in the Box

- The TB8000
- Premium Battery Clamps
- Heavy-Duty Carrying Bag
- User Manual
